

**The list of indicators according to the report on the implementation of the strategy
Sustainable Estonia 21**

<i>Development goals of sustainable development in Estonia</i>	<i>Sub-theme (according to the report on the implementation of the strategy Sustainable Estonia 21)</i>	<i>Indicators</i>	
<i>Viability of the Estonian cultural space</i>	<i>Use of the Estonian language</i>	<i>Use of Estonian as mother tongue</i>	
		<i>Use of Estonian as foreign language</i>	
	<i>Participation in culture</i>	<i>Participation in culture</i>	
		<i>Condition of cultural heritage</i>	
		<i>Number of employees in the cultural sector</i>	
	<i>Preservation of the Estonian population</i>	<i>Rate of natural increase</i>	
<i>Total fertility rate</i>			
<i>Growth of welfare</i>	<i>Economic welfare</i>	<i>Gross domestic product per capita</i>	
		<i>Estonia's GDP per capita compared to the European Union average</i>	
		<i>Productivity</i>	
	<i>Innovation in the society</i>	<i>Research and development expenditure</i>	
		<i>Share of enterprises' innovative products</i>	
		<i>Innovative enterprises</i>	
		<i>Employment in knowledge-intensive services</i>	
		<i>Employment in the medium-high- and high- technology manufacturing sectors</i>	
		<i>Export of high-technology products</i>	
	<i>Sustainability of public finance</i>	<i>The general government consolidated budget balance</i>	
		<i>General government debt</i>	
	<i>Economic sustainability</i>	<i>Gross external debt of Estonia</i>	
		<i>Current account balance</i>	
	<i>Employment</i>	<i>Employment rate</i>	
		<i>Unemployment rate</i>	
	<i>Education</i>	<i>Graduates in mathematics, science and technology</i>	
		<i>Higher education graduates aged 20–29</i>	
		<i>Share of population with at least the upper secondary level of education</i>	
		<i>Participation in lifelong learning</i>	
	<i>Quality of life</i>	<i>Life expectancy</i>	
		<i>Disability-free life expectancy</i>	
		<i>Spread of HIV-virus infection</i>	
		<i>Deaths caused by diseases of the circulatory system</i>	
		<i>Deaths caused by malignant neoplasms</i>	
	<i>Coherent society</i>	<i>Equal opportunities</i>	<i>Inequality of income</i>
			<i>Relative poverty</i>
<i>Risk-of-poverty of children</i>			
<i>Long-term unemployment</i>			
<i>Health insurance coverage</i>			
<i>Risk-of-poverty of the youth</i>			
<i>Participation in education</i>		<i>Early school leavers</i>	
<i>Availability of Internet connection</i>		<i>Number of broadband connections</i>	
<i>Security</i>		<i>Total number of criminal offences</i>	
		<i>Criminal offences against the person</i>	
		<i>Criminal offences against property</i>	
		<i>Juvenile delinquency</i>	
		<i>1st degree criminal offences</i>	
		<i>Deaths by external causes per 100,000 inhabitants</i>	
		<i>Persons killed in traffic accidents</i>	
		<i>Deaths caused by exposure to smoke, fire or flames</i>	
		<i>Manslaughters and murders</i>	
		<i>Suicides</i>	
		<i>Fatal accidents at work</i>	
		<i>Deaths caused by exposure to excessive natural cold</i>	
	<i>Deaths caused by accidental poisoning</i>		

<i>Development goals of sustainable development in Estonia</i>	<i>Sub-theme (according to the report on the implementation of the strategy Sustainable Estonia 21)</i>	<i>Indicators</i>
<i>Ecological balance</i>	<i>Use of natural resources</i>	<i>Forest felling</i>
		<i>Oil shale mining</i>
<i>Mining of construction minerals</i>		
<i>Swamp soils</i>		
<i>Sustainable energy</i>	<i>Sustainable energy</i>	<i>Intensity of energy consumption</i>
		<i>Consumption of energy from renewable energy sources</i>
		<i>Consumption of electricity generated from renewable energy sources</i>
		<i>Ratio between the gross combined heat and power electricity generation and total gross electricity generation</i>
		<i>Share of biofuels in total fuel consumption in transport</i>
<i>Environment-friendly transport</i>	<i>Environment-friendly transport</i>	<i>Level of CO₂ emissions discharged by new passenger cars</i>
		<i>Total passenger turnover of public transport</i>
<i>Pollution of the environment</i>	<i>Pollution of the environment</i>	<i>Emission of greenhouse gases</i>
		<i>Annual emissions of carbon dioxide (CO₂)</i>
		<i>Annual emissions of methane (CH₄)</i>
		<i>Annual emissions of nitrous oxide (N₂O)</i>
		<i>Annual emissions of sulphur dioxide (SO₂)</i>
		<i>Annual emissions of nitrogen oxides (NO_x)</i>
		<i>Annual emissions of carbon monoxide</i>
		<i>Annual emissions of volatile organic compounds</i>
		<i>Pollution load of total nitrogen in wastewater</i>
		<i>Pollution load of total phosphorus in wastewater</i>
		<i>Pollution load of organic pollutants of wastewater</i>
		<i>Use of public sewerage</i>
		<i>Shares of purified wastewater and unpurified wastewater in the total quantity of wastewater</i>
<i>Generation and treatment of wastes</i>	<i>Generation and treatment of wastes</i>	<i>Recovery of waste</i>
		<i>Waste generation</i>
		<i>Disposal of municipal waste</i>
		<i>Waste management in compliance with requirements</i>
		<i>The number of landfills non-compliant with requirements</i>
<i>Biodiversity</i>	<i>Biodiversity</i>	<i>The area of managed semi-natural communities</i>
		<i>The area of protected areas</i>
		<i>Area of swamps</i>
		<i>Strictly protected forest land area</i>
