

Questionnaire manual: Insurance (month)

Questionnaire code: 13562020

Submitted in: By the 15th date after the end of the reference month

Periodicity: Monthly

p. 1/50

Statistics Estonia guarantees the full protection of data submitted.

All insurance premiums receivable during the whole insurance period as of the month the insurance policy takes effect, irrespective of the subsequent premium payments, should be taken into account in the calculation of the amount of non-life insurance premiums in the report. According to the methodology applicable until 2018, the contributions for the respective month were to be reported monthly. If the insurance period is no longer than one year, it does not matter whether the payment has been received or not, neither is the date of concluding the insurance contract relevant – premium payments should be recorded in the questionnaire based on the date the insurance contract took effect.

Example. An insurance contract is concluded on 1 July 2019. The insurance premium for the insurance period 02 August 2019 to 01 August 2020 is 100 euros, which is paid quarterly in the amount of 25 euros. In August 2019, the insurance premium for the whole insurance period in the amount of 100 euros should be reported.

If the insurance period is longer than a year, the insurance premium should be calculated until the end of the insurance period still in the reference period when the insurance contract was entered into.

Example. An insurance contract takes effect on 1 July 2019, the insurance period ends on 30 June 2020. The insurance premium of 300 euros should be paid annually. The insurance premium for this insurance policy should be reported for the whole insurance period in the amount of 300 euros in July 2019.

If the eventual insurance premium is determined during or at the end of the insurance period, it is reported in the period where the insurance premium was ultimately determined. If an advance payment has been made, it should be reported in the period when it was determined. Later, when the eventual premium is determined, the difference between the advance payment and the eventual premium, or the set-off amount, should be reported. In other words, events that happened in the reference period should be recorded: changes in the premium in the insurance period should be reported when the supplementary premium was decided in the case of set-off. If the insurance contract is cancelled during the insurance period, the reimbursements should be reported in the month of cancellation. Each insurer uses its own methods for calculating the reimbursements.

Please make sure that you enter data in the correct cell. If you enter alphabetical characters in a number field, a corresponding error message is displayed. In the case of some fields, logic (arithmetic) checks have been applied to prevent data entry mistakes. If there is a conflict in the entered data or they conflict with pre-filled data, an error message appears when the table is checked. In the case of errors, review the data carefully and make corrections. To submit the questionnaire, click the button „Check“, which applies inter-table checks. Once you have corrected the possible errors, click the button „Confirm“.

DATA COLLECTED WITH THE QUESTIONNAIRE

Table 1. TOTAL PREMIUMS, IN FULL EUORS, IN REFERENCE PERIOD

Starting from February, the values in the table are prefilled with the data from the previous period if the questionnaire is filled in online. If the values have changed, please amend them and write a comment to the period of the questionnaire. The dots in front of the names stand for subdivisions.

| Row code/ column code | Name of variable * - mandatory | Code of variable | Explanation | Type of data (number of decimals) or list/ classification name | You need not fill in the value: period, economic activity |

Table 2. CLAIMS PAID, IN FULL EUROS, IN REFERENCE PERIOD

“Claims paid” covers only payments of claims paid during the period. Claims handling expenses, amounts recovered from salvage and subrogation and change in the provision for claims outstanding are excluded. In addition, in MTPL insurance and in case of claims of insurer of injured party (so called direct settlement or own insurer settlement) all amounts paid or received and/or fees for handling of these claims are excluded.

Starting from February, the values in the table are prefilled with the data from the previous period if the questionnaire is filled in online. If the values have changed, please amend them. The dots in front of the names stand for subdivisions.

| Row code/ column code | Name of variable * - mandatory | Code of variable | Explanation | Type of data (number of decimals) or list/ classification name | You need not fill in the value: period, economic activity |
|-----------------------|---|------------------|--|--|---|
