Questionnaire code: 13542022

Submitted in: 10.07.2022, data about 2021

Periodicity: Annual

p. 1/24

Statistics Estonia guarantees the full protection of data submitted.

eSTAT (<https://estat.stat.ee/>) is for data submission.

Please make sure that you enter data in the correct cell. If you enter alphabetical characters in a number field, a corresponding error message is displayed. In the case of some fields, logic (arithmetic) checks have been applied to prevent data entry mistakes. If there is a conflict in the entered data or they conflict with pre-filled data, an error message appears when the table is checked. In the case of errors, review the data carefully and make corrections.

After correcting the data, save changes and check the questionnaire again. If there are no more mistakes, confirm and submit the data by clicking "Confirm" on the last page of the questionnaire. You will be displayed a message that the data have been submitted successfully. If you have any questions, please contact Statistics Estonia's customer service either by phone at +372 625 9300 (Mon–Thu 8:30–16:30, Fri 8:30–15:30) or by e-mail at klienditugi@stat.ee.

Accuracy of the data ensures truthfulness of statistical information.

DATA COLLECTED WITH THE QUESTIONNAIRE

Table 1. EMPLOYMENT, WORKING HOURS (ONLY ABOUT ESTONIA)

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
B_010 / 1	Annual average number of persons employed	ENT_B_010	Annual average number of persons employed – all employees working in the undertaking, irrespective of the length of their work week: owners working in the undertaking and their family members working free of charge; full or part time employees; persons who work outside the undertaking (marketing personnel, etc.); persons temporarily absent from work (sick leaves, paid holidays, educational leaves, persons on strike, etc.); trainees, seasonal and remote employees; persons employed under contract for services. The number of employed persons does not include the employees of other companies who are active in this undertaking, executing its orders, also persons absent from work for a longer period of time (employees on parental leave or in military service).	Positive integer	
B_080 / 1	Average number of employees in full-time equivalents	ENT_B_080	To find the average number of employees in full-time equivalents, the working hours of part time employees are reduced to full working time based on the annual full working time of the undertaking and this number is added to the number of full time employees. To find the annual average number of employees, the average numbers of employees reduced to full working time in each month are summed up and multiplied by 12.	Positive integer	

Table 2. RESEARCH AND DEVELOPMENT (ONLY ABOUT ESTONIA)

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
B_065 / 1	Presence of persons engaged in research and development in	ENT_B_065	Presence of persons engaged in research and development in the undertaking in the present year. Research and development (R&D) is creative systematic work the main criterion of which is innovativeness and the absence of	valik_jah_ei_1v

Questionnaire code: 13542022

Submitted in: 10.07.2022, data about 2021

p. 2/24

	the undertaking in the present year *		solution for a scientific or a technological problem at the early stage of the work; the aim of R&D is to obtain new knowledge about people, the nature, the society and their mutual interaction by using scientific studies, and the implementation of such knowledge for the production of new materials, products and equipment and for the implementation or improvement of processes, systems and services. The employed persons include both full time employees as well as persons occasionally involved in the R&D activities. Unlike for the rest of the questionnaire, this question is about the activities following the reference year.		
--	---------------------------------------	--	---	--	--

Table 3. ASSETS AND LIABILITIES (AT THE END OF THE REFERENCE PERIOD, ONLY ABOUT ESTONIA)

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
3210 / 1	Total receivables from direct insurance activities	INS_Y3_3210	Current receivables and paid prepayments (receivables from buyers, tax advances and recoveries, other current receivables, prepayments for services, given loans (with up to 12-month residual maturity)). Receivables or debts, prepayments or money have been transferred but the service has not been provided or goods have not been issued.	Positive integer	
3230 / 1	Other receivables	INS_Y3_3230	Other receivables which are not from direct insurance activities.	Positive integer	
3830 / 1	Financial liabilities from unit-linked life insurance policies	INS_Y3_3830	Financial liabilities are the liabilities of the insurance undertaking arising from the financial risk in the insurance agreements and the performance of which requires waiver of money or another financial asset in the future. Financial liabilities from unit-linked life insurance policies, where the financial risk is borne by the policyholder and the amount of which is directly linked with the change in the profitability and/or value of the investments of the unit-linked life insurance policies.	Positive integer	
3840 / 1	Financial liabilities from investment agreements	INS_Y3_3840	Financial liabilities are the liabilities of the insurance undertaking arising from the financial risk in the insurance agreements and the performance of which requires waiver of money or another financial asset in the future. Financial liabilities from such investment agreements where the financial risk is borne by the insurance undertaking. Also, indicate the share of additional profit assigned and/or guaranteed for investment agreements.	Positive integer	
3850 / 1	Financial liabilities from insurance agreements	INS_Y3_3850	Sum of the insurance technical provisions and financial liabilities from the insurance activities of the branch. Financial liabilities are the liabilities of the insurance undertaking arising from the financial risk in the insurance agreements and the performance of which requires waiver of money or another financial asset in the future. Financial liabilities are also liabilities from unit-linked life insurance policies, where the financial risk is borne by the financial risk policyholder.	Positive integer	
3860 / 1	Other financial liabilities	INS_Y3_3860	Other financial liabilities – debts to credit institutions, debt securities issued, dividend debt, financial lease liabilities, debts to parent, subsidiary and affiliated undertakings and the negative market value of derivatives and other financial liabilities. Issued debt securities are reflected in depreciated acquisition cost or fair value. Financial liabilities are the liabilities of the insurance undertaking arising from the financial risk in the insurance agreements and the performance of which requires waiver of money or another financial asset in the future.	Positive integer	
4310_1 / 1	Provision for prepaid premiums (net) – total sum (gross)	INS_Y3_4310_1	Provision for prepaid premiums is formed by the provisions for the prepaid premiums of individual agreements, whereas every provision for each individual agreement forms proportionally the same share of the gross premium of this agreement (except in motor third party liability insurance, where the subscription fee for the fund will be subtracted first), which the insurance cover validity time after the balance sheet date forms of the insurance cover validity time of the whole agreement. In life insurance, the sum of the provision for prepaid premiums is indicated under "Provision	Positive integer	

Questionnaire manual: Insurance

Questionnaire code: 13542022

Submitted in: 10.07.2022, data about 2021

p. 3/24

			for life insurance". Provision for prepaid premiums together with the share of reinsurance (provision for prepaid premiums in net sum plus the share of reinsurance in the provisions for prepaid premiums).		
4310_2 / 1	Provision for prepaid premiums (net) – sum of reinsurance	INS_Y3_4310_2	Provision for prepaid premiums is formed by the provisions for the prepaid premiums of individual agreements, whereas every provision for each individual agreement forms proportionally the same share of the gross premium of this agreement (except in motor third party liability insurance, where the subscription fee for the fund will be subtracted first), which the insurance cover validity time after the balance sheet date forms of the insurance cover validity time of the whole agreement. In life insurance, the sum of the provision for prepaid premiums is indicated under "Provision for life insurance". The share of reinsurance in the provision for prepaid premiums forms proportionally the same share of the provision for prepaid premiums, which are formed by the proportional reinsurance premiums from gross premiums.	Positive integer	
4320_1 / 1	Provision for life insurance (net) – total sum (gross)	INS_Y3_4320_1	Provision for life insurance is the technical provision for these life insurance agreements which are classified as insurance agreements. If the insurance and deposit component are unbundled in the insurance agreement, then indicate the technical provision formed for the part of the insurance risk included in the insurance agreement. Also, indicate the provision for prepaid premiums. The share of life insurance in the provision for life insurance includes this part of the provision for life insurance, in the extent of which the liability lies on the reinsurer. Provision for life insurance in gross sum is the sum of the provision for life insurance (net) and the share of reinsurance in the provision for life insurance.	Positive integer	
4320_2 / 1	Provision for life insurance (net) – sum of reinsurance	INS_Y3_4320_2	Share of reinsurance in the provision for life insurance. Provision for life insurance is the technical provision for these life insurance agreements which are classified as insurance agreements. If the insurance and deposit component are unbundled in the insurance agreement, then indicate the technical provision formed for the part of the insurance risk included in the insurance agreement. Also, indicate the provision for prepaid premiums. The share of life insurance in the provision for life insurance includes this part of the provision for life insurance, in the extent of which the liability lies on the reinsurer.	Positive integer	
4330_1 / 1	Provision for outstanding claims (net) – total sum (gross)	INS_Y3_4330_1	In non-life insurance, it is the sum allocated for covering final and estimated expenses in relation to the losses arising from insured events occurred before the balance sheet date, including losses that have occurred but are not reported, loss adjustment expenses and provision for insurance pension. In life insurance, it is the sum allocated for covering final and estimated expenses in relation to the insurance premiums and indemnities (including loss adjustment expenses) arising from insured events occurred before the balance sheet date, including insured events that have occurred but are not reported. Provision for outstanding claims in gross sum is equal to the sum of the provision for outstanding claims (net) and the share of reinsurance in the provision for outstanding claims.	Positive integer	
4330_2 / 1	Provision for outstanding claims (net) – sum of reinsurance	INS_Y3_4330_2	In non-life insurance, it is the sum allocated for covering final and estimated expenses in relation to the losses arising from insured events occurred before the balance sheet date, including losses that have occurred but are not reported, loss adjustment expenses and provision for insurance pension. In life insurance, it is the sum allocated for covering final and estimated expenses in relation to the insurance premiums and indemnities (including loss adjustment expenses) arising from insured events occurred before the balance sheet date, including insured events that have occurred but are not reported. The share of reinsurance in the provision for outstanding claims includes this part of the provision for life insurance, in the extent of which the liability lies on the reinsurer.	Positive integer	
4340_1 / 1	Provision for bonuses (net) – total sum (gross)	INS_Y3_4340_1	Provision for bonuses is the sum of the calculated additional profit for insurance undertakings, the insured and the beneficiaries, the amount of which is not confirmed by the management bodies of the insurance undertaking and it has not been assigned or guaranteed for insurance or investment agreements. Also indicate the calculated sum of the cumulative technical profit of pension agreements, in the extent of which the insurance undertaking has the liability to	Positive integer	

Questionnaire manual: Insurance

Questionnaire code: 13542022

Submitted in: 10.07.2022, data about 2021

p. 4/24

			increase pension premiums in the next financial year. In non-life insurance, indicate the refunds of premiums to insurance undertakings which are known for the balance sheet date and are to be performed after the balance sheet date. Provision for bonuses in gross sum is the sum of the provision for bonuses (net) and the share of reinsurance in the provision for bonuses.		
4340_2 / 1	Provision for bonuses (net) – sum of reinsurance	INS_Y3_4340_2	Provision for bonuses is the sum of the calculated additional profit for insurance undertakings, the insured and the beneficiaries, the amount of which is not confirmed by the management bodies of the insurance undertaking and it has not been assigned or guaranteed for insurance or investment agreements. Also indicate the calculated sum of the cumulative technical profit of pension agreements, in the extent of which the insurance undertaking has the liability to increase pension premiums in the next financial year. In non-life insurance, indicate the refunds of premiums to insurance undertakings which are known for the balance sheet date and are to be performed after the balance sheet date. The share of reinsurance in the provision for life insurance includes this part of the provision for bonuses, in the extent of which the liability lies on the reinsurer.	Positive integer	
4350 / 1	Provision for pension agreements (net)	INS_Y3_4350	Under the provisions for pension agreements (net), indicate the amount of the present value of the liabilities arising from the bearing of the insurance risk included in the provision for life insurance. The share of life insurance in the provision for pension agreements includes this part of the provision for pension agreements, in the extent of which the liability lies on the reinsurer. Provision for pension agreements in net sum is indicated without the share of reinsurance.	Positive integer	
4360_1 / 1	Other technical provisions (net) – total sum (gross)	INS_Y3_4360_1	Other technical provisions, also the provision for outstanding risks. If the expected value of the claims with unexpired period of validity of the insurance agreements valid on the balance sheet date and the administrative costs exceeds the sum of the provision for the prepaid premiums of these insurance agreements after deducting the acquisition costs from the provision for prepaid premiums and adding the share of reinsurance of the capitalised acquisition costs, then the provision for outstanding risks must be formed in the extent of this difference. If in addition to the provision for pension agreements and for bonuses, the life insurance undertaking also forms and additional technical provision related to pension agreements, then the amount of the respective provision is indicated as at the balance sheet date. Other technical provisions in gross sum are reflected as the sum of the net sum and the share of reinsurance.	Positive integer	
4360_2 / 1	Other technical provisions (net) – sum of reinsurance	INS_Y3_4360_2	Share of reinsurance in other technical provisions. Other technical provisions, also the provision for outstanding risks. If the expected value of the claims with unexpired period of validity of the insurance agreements valid on the balance sheet date and the administrative costs exceeds the sum of the provision for the prepaid premiums of these insurance agreements after deducting the acquisition costs from the provision for prepaid premiums and adding the share of reinsurance of the capitalised acquisition costs, then the provision for outstanding risks must be formed in the extent of this difference. If in addition to the provision for pension agreements and for bonuses, the life insurance undertaking also forms and additional technical provision related to pension agreements, then the amount of the respective provision is indicated as at the balance sheet date. Other technical provisions in gross sum are reflected as the sum of the net sum and the share of reinsurance.	Positive integer

1	from reinsurance	2300	share of reinsurance.	integer	
2300_1 / 1	Net claims from reinsurance – losses paid in gross sum	INS_Q2_2300_1	Sum of losses paid by non-life insurance companies in the reference period.	Positive integer	
2300_2 / 1	Net claims from reinsurance – gross sums obtained as subrogation and from the realisation of salvage	INS_Q2_2300_2	Sums of subrogation claims registered by the non-life insurance companies in the reference period and the sums of claims from the realisation of salvage from which bad debts have been deducted.	Positive integer	
2300_3 / 1	Net claims from reinsurance – indemnities in gross sum	INS_Q2_2300_3	Here, life insurance companies indicate the disbursements from the occurrence of insured events in the reference period and pension payments from pension insurance agreements.	Positive integer	
2300_4 / 1	Net claims from reinsurance – sum of surrender in gross sum	INS_Q2_2300_4	Sum of surrender values from insurance agreements paid by non-life insurance companies in the reference period.	Positive integer	
2500 / 1	Change in other technical provisions	INS_Q2_2500	Change in other technical provisions (net, growth –) – change in technical provisions reflected on row “Total insurance technical provisions in net sum”: increase (–), decrease (+).	Integer	
2500_1 / 1	Change in other technical provisions – total	INS_Q2_2500_1	Change in technical provisions, increase (–), decrease (+). Change in other technical provisions in total or gross sum is reflected as the sum of the change in other technical provisions (net) and the share of reinsurance.	Integer	
2500_2 / 1	Change in other technical provisions – share of reinsurance	INS_Q2_2500_2	Share of reinsurers in the change in other technical provisions, increase (+), decrease (–).	Integer	
2400 / 1	Change in the provisions for life insurance	INS_Q2_2400	Change in the provision for life insurance (net, growth –) – change in the provision for life insurance (total insurance technical provisions in net sum): increase (–), decrease (+).	Integer	
2400_1 / 1	Change in the provision for life insurance – total	INS_Q2_2400_1	Change in the provision for life insurance in net sum from reinsurance is reflected in the provision for life insurance together with the share of reinsurance. Change in the provision for life insurance, increase (–), decrease (+).	Integer	
2400_2 / 1	Change in the provision for life insurance – share of reinsurance	INS_Q2_2400_2	Share of reinsurance in the change in the provision for life insurance in net sum. Share of reinsurers in the change in the provision for life insurance, increase (+), decrease (–).	Integer	
8 / 1	Bonuses from reinsurance in net sum	INS_Y5_8	Bonuses from reinsurance in net sum – additional profit (bonus) calculated in the reference period, at the expense of which the provision for bonuses and the technical profit of the pension agreements calculated for the policyholders in the reference period is increased.	Positive integer	
2600 / 1	Total net operating expenses	INS_Q2_2600	Expenses occurring in the scope of ordinary business of the undertaking, from which the share of reinsurance is deducted.	Positive integer	
2600_1 / 1	Total net operating expenses – acquisition costs in net sum	INS_Q2_2600_1	Total net operating expenses. Acquisition costs are direct and indirect costs from the conclusion of insurance and investment agreements (incl. direct costs such as commissions for intermediaries, cost for the formalisation of insurance documents or involving the agreements in the portfolio, and indirect costs such as advertising costs, administrative costs related to the review of applications and issue of policies).	Positive integer	
2600_2 / 1	Total net operating expenses – administrative costs in net sum	INS_Q2_2600_2	Administrative costs – costs related to the collection of premiums and payments, portfolio management, handling of bonuses and benefits and incoming and outgoing reinsurance. This includes expenses related to insurance activities in the extent that they are not included in the acquisition costs, loss adjustment expenses, expenses related to investments or other expenses.	Positive integer	
10 / 1	Investment income and expenses	INS_Y5_10	Investment income and expenses from real estate investments, subsidiary and affiliated undertakings, interests, interest income and expenses, change in the value of other investments, profit/loss in the realisation of investments and other investment expenses.	Integer	
1001 / 1	Investment income and expenses – from real estate investments	INS_Y5_1001	Real estate investment income and expenses – change in the value of real estate investments and income and expenses.	Integer	

Questionnaire manual: Insurance

Questionnaire code: 13542022

Submitted in: 10.07.2022, data about 2021

p. 6/24

1002 / 1	Investment income and expenses – from subsidiary and affiliated undertakings	INS_Y5_1002	Dividends, interests from securities and loans, write-downs of shares, securities and loans from subsidiary and affiliated undertakings and changes in fair value.	Integer	
1003 / 1	Investment income and expenses – from interests	INS_Y5_1003	Interest income and expenses registered in the reference period, including from securities (securities obtained with the price over/below the nominal value), demand and time deposits of credit institutions, overnight deposits, issued loans, financial lease (except those financial leases connected with real estate investments) and repurchase agreements. Also indicate dividend income from portfolio investments.	Integer	
1004 / 1	Investment income and expenses – change in the value of other investments	INS_Y5_1004	Change in the value of other investments – unrealised profits and losses in fair value from the changes in the fair value of financial assets reflected in the income statement and unrealised financial income and expenses from derivatives. Also indicate the unrealised profits and losses from the valuation of foreign currency accounts based on the exchange rate of the European Central Bank valid on the balance sheet date.	Integer	
1005 / 1	Investment income and expenses – profit/loss from the realisation of investments	INS_Y5_1005	Profit/loss from the realisation of investments – realisation profit and loss from the sale of investments (except shares of subsidiary and affiliate undertakings). Also indicate the realised profit and loss from the sale of foreign currency based on the exchange rate of the European Central Bank valid on the balance sheet date.	Integer	
1006 / 1	Investment income and expenses – other investment expenses	INS_Y5_1006	Expenses of other investments – salaries and social costs of employees related to investment activities, commissions for the investment management undertakings, transaction costs of the acquisition of financial assets and other expenses related to investment activities.	Integer	

Table 5. MOVEMENT OF NON-CURRENT ASSETS: TANGIBLE FIXED ASSETS, IN EUROS (ONLY ABOUT ESTONIA)

Assets on operating lease and in the balance sheet are indicated under right-of-use assets, column 45.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
H_020 / 2	Tangible fixed assets: land – in residual value/fair value as at the end of the previous reference period	ENT_H_020_2	In residual value/fair value as at the end of the previous reference period – the carrying amount of assets at the beginning of the reference period. The net sum in which the assets are reflected in the balance sheet, taking into consideration the accumulated depreciation and possible write-downs. Land – land as an object with unlimited useful life is not depreciated, which is why the acquisition cost of land must be equal to its residual value. Also indicate expenses on land improvement and arrangement, also the land use rights, if classified as tangible fixed assets.	Positive integer	
H_020 / 3	Tangible fixed assets: structures – in residual value/fair value as at the end of the previous reference period	ENT_H_020_3	In residual/fair value as at the end of the previous ref. period - carrying amount of assets at the beginning of the ref. period. Net sum in which the assets are reflected in balance sheet, considering the acc. depreciation and possible write-downs. Structures - buildings - usually roofed and walled structure which is permanently connected to land and has indoor rooms; facilities - structures permanently connected to land which are not buildings. Transport facilities: roads, streets, railways, takeoff and landing strips at airports, bridges, trestles, tunnels, port facilities (piers, jetties, etc.). Pipelines, communication and power lines: water, gas and sewage pipelines (incl. hot water boilers), fountains, water towers, communication and power lines, etc. Civil facilities: mines and quarries, chimneys, stadiums and sports grounds, parks, swimming beaches, golf courses, trampolines, ski lifts, swimming pools, cemeteries, landfills, awnings, etc. Also indicate the building right.	Positive integer	
H_020 / 4	Intangible fixed assets: machinery	ENT_H_020_4	In residual value/fair value as at the end of the previous reference period – the carrying amount of assets at the	Positive integer	

Questionnaire manual: Insurance

Questionnaire code: 13542022

Submitted in: 10.07.2022, data about 2021

p. 7/24

	and equipment – in residual value/fair value as at the end of the previous reference period		beginning of the reference period. The net sum in which the assets are reflected in the balance sheet, taking into consideration the accumulated depreciation and possible write-downs. Means of transport – means of transport used on roads and streets both for cargo as well as passenger transport: motor vehicles, motor vehicle bodies, trailers and semi-trailers, vehicles with electric motor for passenger transport (trolleybuses), special purpose motor vehicles, lorry cranes, motor vehicles for driving on snow, golf carts; also means of transport for rail, water and air transport of cargo and passengers: rail locomotives and rolling stock, trams, water crafts and other special purpose floating devices, <u>aircrafts, motorcycles and bicycles.</u>		
H_020 / 6	Tangible fixed assets: machinery and equipment – computers and computer systems: in residual value/fair value as at the end of the previous reference period	ENT_H_020_6	In residual value/fair value as at the end of the previous reference period – the carrying amount of assets at the beginning of the reference period. The net sum in which the assets are reflected in the balance sheet, taking into consideration the accumulated depreciation and possible write-downs. Computers and computer systems – computers and other information processing devices: servers, laptops and electronic notebooks, computer systems, input and output devices (scanners, printers), memory devices, other automatic data processing equipment, accessories for computers. This also includes software purchased together with hardware.	Positive integer	
H_020 / 7	Tangible fixed assets: machinery and equipment – other machinery and equipment: in residual value/fair value as at the end of the previous reference period	ENT_H_020_7	In residual/fair value as at the end of the previous ref. period - carrying amount of assets at the beginning of the ref. period. Net sum in which assets are reflected in balance sheet, considering the acc. depreciation and write-downs. Other machinery and equip. - conveyors, lifting and loading devices, thermal equip., cleaning and sorting equip., laboratory equip., electrical engines and diesel generators, tools, fittings, etc., exc. means of transport; engines and turbines (exc. engines of aircrafts, vehicles and motorcycles), other generally used machines and mechanisms, steam boilers (exc. central heating hot water boilers classified as facilities), lifting machines and transition mechanisms, agricultural and forestry machinery (and tractors), machine tools, other special purpose machines (road rollers and lorry cranes), office equip. (exc. computers), electrical equip. and apparatus n.e.c., radio, television and communication equip., <u>medical, precision and optical instruments.</u>	Positive integer	
H_020 / 8	Tangible fixed assets: other intangible fixed assets – in residual value/fair value as at the end of the previous reference period	ENT_H_020_8	In residual value/fair value as at the end of the previous reference period – the carrying amount of assets at the beginning of the reference period. The net sum in which the assets are reflected in the balance sheet, taking into consideration the accumulated depreciation and possible write-downs. Other tangible fixed assets – furniture, musical instruments, sports equipment, valuables.	Positive integer	
H_020 / 41	Tangible fixed assets: projects in progress and prepayments – in residual value/fair value as at the end of the previous reference period	ENT_H_020_41	In residual value/fair value as at the end of the previous reference period – the carrying amount of assets at the beginning of the reference period. The net sum in which the assets are reflected in the balance sheet, taking into consideration the accumulated depreciation and possible write-downs. Unfinished projects and prepayments – unfinished structures and other projects, prepayments for non-current assets.	Positive integer	
H_020 / 12	Tangible fixed assets: projects in progress and prepayments for non-current assets: in residual value/fair value as at the end of the previous reference period	ENT_H_020_12	In residual value/fair value as at the end of the previous reference period – the carrying amount of assets at the beginning of the reference period. The net sum in which the assets are reflected in the balance sheet, taking into consideration the accumulated depreciation and possible write-downs. Prepayments for non-current assets – prepayments for suppliers for non-current assets (also prepayments for construction companies).	Positive integer	
H_020 / 45	Property, plant and equipment: right-of-use assets – residual cost / fair value at the end of the	ENT_H_020_45	Residual cost / fair value at the end of the previous reference period – (residual) book value of assets at the beginning of the reference period. This is the net sum of assets in the balance sheet including the accumulated depreciation and potential write-downs. Operating leases are indicated when preparing the financial statements in accordance with IFRS	Positive integer

p. 8/24

	previous reference period		(IFRS 16 "Leases") or ASBG 9 clause 31b (all lease agreements, irrespective of whether they correspond to the definition of finance or operating lease, are recognised in the lessee's balance sheet).		
H_030 / 2	Tangible fixed assets: land-purchases and improvements	ENT_H_030_2	Purch. and improv. - non-current assets (NCA) obtained within the ref. period, incl. for non-monetary downpayments, e.g., for shares, also the total contr. value of NCA without interest, obtained within the ref. period with fin. lease agreements. NCA are reflected in balance sheet in their acq. cost (purch. price and costs related to the acq. which are necessary for taking the asset to the operating condition and location). Costs related to later improvements are also reflected, such costs are added to the acq. cost of tangible fixed assets (TFA) only if they correspond to the definition of TFA and the criteria on reflecting the asset in balance sheet (incl. participation in the generation of profit in the future). Land - land as an object with unlimited useful life is not depreciated, which is why the acq. cost of land must be equal to its residual value. Also indicate costs on land improv. and arrangement, also the land use rights, if classified as TFA.	Positive integer	
H_030 / 3	Tangible fixed assets: structures – purchases and improvements	ENT_H_030_3	Purch. and improv. - non-current assets (NCA) obtained within the ref. period, incl. for non-monetary downpayments, e.g., for shares, also the total contr. value of NCA w/o interest, obtained with fin. lease agreements. NCA are reflected in balance sheet in acq. cost (purch. price and expenses directly related to acq.). Costs related to later improv. are also reflected here, such costs are added to the acq. cost of tangible fixed assets (TFA) only if they correspond to definition of TFA and criteria on reflecting the asset in balance sheet. Structures - buildings - roofed and walled structure which is permanently connected to land and has indoor rooms; facilities - structures permanently connected to land which are not buildings. Transp. fac.: roads, streets, railways, tramways, takeoff and landing strips at airports, bridges, port facilities. Pipelines, water, gas and sewage pipelines, communication and power lines. Civil fac.: mines, stadiums, parks, landfills; also building rights.	Positive integer	
H_030 / 4	Tangible fixed assets: machinery and equipment – means of transport: purchases and improvements	ENT_H_030_4	Purch. and improv. - non-current assets (NCA) obtained within the ref. period, incl. for non-monetary downpayments, e.g. for shares, also the total contr. value of NCA w/o interest, obtained with fin. lease agreements. NCA are reflected in balance sheet in acq. cost (purch. price and costs directly related to the acq.). Costs related to later improv. are also reflected here, such costs are added to the acq. cost of tangible fixed assets (TFA) only if they corresp. to definition of TFA and criteria on reflecting the asset in balance sheet. Means of transp. - means of transp. used on roads and streets both for cargo and pax transp.: motor veh., motor veh. bodies, trailers and semi-trailers, veh. with electric motor for pax transp. (trolleybuses), special purpose motor veh., lorry cranes, golf carts; also means of transp. for rail, water and air transp.: rail locomotives and rolling stock, trams, water crafts and other special purpose floating devices, aircrafts, motorcycles and bicycles.	Positive integer	
H_030 / 6	Tangible fixed assets: machinery and equipment – computers and computer systems: purchases and improvements	ENT_H_030_6	Purch. and improv. – non-current assets (NCA) obtained within the ref. period, incl. for non-monetary downpayments, e.g. for shares, also the total contr. value of NCA w/o interest, obtained with fin. lease agreements. NCA are reflected in balance sheet in their acq. cost (purch. price and costs related to the acq. which are necessary for taking the asset to the op. condition and location). Costs related to later improv. are also reflected, such costs are added to the acq. cost of tangible fixed assets (TFA) only if they corresp. to definition of TFA and criteria on reflecting the asset in balance sheet (incl. participation in the generation of profit in the future). Computers and comp. systems – comp. and other information processing devices: servers, laptops and electronic notebooks, comp. systems, input and output devices (scanners, printers), memory devices, other automatic data processing equip., accessories for comp. Also includes software purchased together with hardware.	Positive integer
