Questionnaire code: 13012022

Submitted in: 1.04.2022, data about 2021

Periodicity: Annual

p. 1/4

Statistics Estonia guarantees the full protection of data submitted.

In this questionnaire, educational expenditures cover the following areas: provision of formal education, research and development and ancillary services associated with formal education. Ancillary services refer mainly to the provision of catering, school transportation, boarding, healthcare and sports facilities.

Note: All types of expenditures related to the provision of other services (e.g. organising hobby education or paid in-service training) must be omitted in these tables. From organising other services, own funds might be generated, which can serve as own source of funding for educational expenditure.

If the institution has subsidiaries, please submit consolidated data. Also note that the sum of educational expenditures does not have to equal the sum of expenditures in the annual report.

eSTAT (<https://estat.stat.ee/>) is for data submission.

Please make sure that you enter data in the correct cell. If you enter alphabetical characters in a number field, a corresponding error message is displayed. In the case of some fields, logic (arithmetic) checks have been applied to prevent data entry mistakes. If there is a conflict in the entered data or they conflict with pre-filled data, an error message appears when the table is checked. In the case of errors, review the data carefully and make corrections.

After correcting the data, save changes and check the questionnaire again. If there are no more mistakes, confirm and submit the data by clicking "Confirm" on the last page of the questionnaire. You will be displayed a message that the data have been submitted successfully. If you have any questions, please contact Statistics Estonia's customer service either by phone at +372 625 9300 (Mon–Thu 8:30–16:30, Fri 8:30–15:30) or by e-mail at klienditugi@stat.ee.

Accuracy of the data ensures truthfulness of statistical information.

DATA COLLECTED WITH THE QUESTIONNAIRE

Table 1. EDUCATIONAL EXPENDITURES BY TYPE, THOUSAND EUROS

The sum of educational expenditures by type (Table 1 row x6) must be equal to the sum of educational expenditures by sources of funding (Table 2 row x7). For information purposes, the data submitted for the previous period are displayed in column 1A.

In this questionnaire, educational expenditures cover the following areas: provision of formal education, research and development and ancillary services associated with formal education. Ancillary services refer mainly to the provision of catering, school transportation, boarding, healthcare and sports facilities. Note: All types of expenditures related to the provision of other services (e.g. organising hobby education or paid in-service training) must be omitted in these tables. From organising other services, own funds might be generated, which can serve as own source of funding for educational expenditures. If the institution has subsidiaries, please submit consolidated data. Also note that the sum of educational expenditures does not have to equal the sum of expenditures in the annual report.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/classification name	You need not fill in the value: period, economic activity
1 / 1	Labour costs in education, thousand euros *	EDUC_E XP11_V2	Labour costs should cover both teaching and non-teaching staff who provide formal education, ancillary services or are engaged with R&D activities. Labour costs must include salaries and fringe benefits with all applicable taxes. Labour costs indicate the labour costs of natural persons employed based on the Employment Contracts Act as well as the Law of Obligations Act (indicate the persons working based on the Law of Obligations Act only when the taxes paid on such salaries are calculated by the employer. If services are purchased from legal persons based on the Law of Obligations Act, then such expenditures are indicated under other current expenditures).	Positive integer	
2 / 1	Labour costs of teaching staff, thousand euros *	EDUC_E XP12_V2	Labour costs include salaries and fringe benefits with all applicable taxes. Labour costs of teaching staff cover direct teaching (e.g. teacher, lecturer, assistant teacher). If the	Positive integer

Questionnaire code: 13012022

Submitted in: 1.04.2022, data about 2021

p. 2/4

			working time of the school staff is divided between different activities, use their proportion. E.g., if the head teacher works a quarter of a semester as a teacher but handles management tasks for three quarters of the semester, one quarter of his/her labour costs should be reported as the teaching labour cost. Labour costs of the employees of the institutions of higher and vocational education whose working time is divided between teaching and other activities, e.g. provision of in-service training services, R&D activities, must be handled in the same way. Teaching staff does not include providers of ancillary services, administrative tasks and support staff (e.g. librarian, psychologist, school nurse).		
3 / 1	Fringe benefits for employees, thousand euros *	EDUC_E XP15_V2	Fringe benefits for employees – all benefits for all employees within a calendar year which are taxable as fringe benefits. The reported benefits should include the fringe benefit tax and are included in the labour costs.	Positive integer	
4 / 1	Other current educational expenditures, thousand euros *	EDUC_E XP13_V2	Other current educational expenditures – all other expenditures in the reference period that are not labour costs or capital expenditure. Current expenditures are: lease and rent of buildings and/or premises; electricity, water and heating costs; acquisition costs of smaller equipment, instruments, materials and other current assets; costs related to business trips; repair works, telecommunications and IT costs; costs of contractual and outsourced services; financial aid given to students from own funds, etc. Current expenditures do not include interest costs and costs related to the acquisition of non-current assets or depreciation of non-current assets.	Positive integer	
5 / 1	Education investments, thousand euros *	EDUC_E XP14_V2	Investments – costs related to the acquisition or increase of the value of fixed assets (both tangible and intangible). Investments are shown at acquisition cost less depreciation. If possible, investments are reported in the year in which the contractor was paid for. E.g., when 5 million euros was paid for the renovation of the school building in 2019 and another 10 million in 2020, then 5 million euros would be recognized as an investment in 2019. Fixed assets do not need to be fully completed to be shown as an investment in this questionnaire. Investments include: construction and capital repairs of buildings and facilities (incl. rebuilding or extending a building); acquisition costs of equipment, apparatus, machinery, inventory, information and communication technology and means of transport; creating study libraries and information banks; acquisition of patents, licences and special software.	Positive integer	
7 / 1	Expenditure on ancillary services, thousand euros *	EDUC_E XP16_V2	Total costs of ancillary services should include all expenditures (labour costs, current costs, investments) related to the provision of ancillary services. Expenditures on ancillary services are included in labour costs of education, other current educational expenditure and investments. Ancillary services include services for student welfare, such as catering, school transport, provision of accommodation, healthcare and provision of sports facilities. Sometimes they also include services for the general public (e.g. museums, radio, cultural programs).	Positive integer	

Table 2. EDUCATIONAL EXPENDITURES BY SOURCES OF FUNDING, THOUSAND EUROS

The sum of educational expenditures by sources of funding (Table 2 row x7) must be equal to the sum of educational expenditures by type (Table 1 row x6). For information purposes, the data submitted for the previous period are displayed in column 1A.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
1 / 1	Source of funding for education – state funds, thousand euros *	EDUC_E XP26_V2	State funds – sums obtained from the state budget to cover educational expenditure, including from ministries, state institutions (e.g., Estonian Agricultural Registers and Information Board, Environmental Investment Centre) and state-owned foundations (e.g., Innove, Archimedes, Estonian Research Council etc.). If the state is a co-funder (with foreign sources), the sum must be divided based on the	Positive integer

p. 3/4

			foreign sources), the sum must be divided based on the proportion of co-funding, whereas the share of the state must be reported under state funds and foreign funds under foreign sources. Indicate only the sums spent on funding education in the reference period.		
2 / 1	Source of funding for education – municipality, thousand euros *	EDUC_E XP27_V2	Municipal funds – sums obtained from local governments and their subunits to cover educational expenditure (e.g., allowances, benefits, funds for covering expenses, etc.). Indicate only the sums spent on funding education in the reference period.	Positive integer	
3 / 1	Source of funding for education – natural persons, thousand euros	EDUC_E XP28_V2	Tuition fees and other sums received from the student or his/her household for the acquisition of formal education, incl. sponsorship by private persons. (E.g., payments to cover ancillary services – school meals, accommodation, school transport). Indicate only the sums spent on funding education in the reference period.	Positive integer	
4 / 1	Source of funding for education – private legal persons in Estonia, thousand euros *	EDUC_E XP29_V2	Tuition fees, allowances, sponsorship, etc. related to the acquisition of formal education received from private legal persons in Estonia. Indicate only the sums spent on funding education in the reference period.	Positive integer	
5 / 1	Source of funding for education – own funds, thousand euros *	EDUC_E XP210_V2	Own funds – sums obtained from other activities and used to cover educational expenditure (e.g., from in-service trainings, sums obtained based on R&D agreements or contributions by owners of the educational institution, loans taken for the provision of formal education). Indicate only the sums spent on funding education in the reference period.	Positive integer	
6 / 1	Source of funding for education – foreign sources, thousand euros *	EDUC_E XP211_V2	Foreign sources – funds obtained from foreign legal persons and institutions, international organisations, including in the framework of EU programmes or funds, to cover educational expenditure. If the state is a co-funder, the sum must be divided based on the proportion of co-funding, whereas the share of the state must be reported under state funds and foreign funds under foreign sources. Indicate only the sums spent on funding education in the reference period.	Positive integer	

Table 3. TUITION FEES, THOUSAND EUROS

For information purposes, the data submitted for the previous period are displayed in column 1A.

In the case of received tuition fees, only the sum is indicated that was spent for funding education during the reference period.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
1 / 1	Tuition fees received, thousand euros	EDUC_E XP313_V2	Total tuition fees received – tuition fees received to cover educational expenditure in the reference period, regardless of the payer.	Positive integer	

Table 4. TIME SPENT ON FILLING OUT THE QUESTIONNAIRE (incl. for preparing the data)

Please estimate how much time you spent on filling out the questionnaire (incl. time spent on reading the instructions, collecting and preparing data). Record the total time spent by all employees.

Row code/ column code	Name of variable * - mandatory	Code of variable	Explanation	Type of data (number of decimals) or list/ classification name	You need not fill in the value: period, economic activity
/	Number of hours spent on completing the questionnaire and	TAITMIS EAEGTU NDI	Number of hours spent by all employees on completing the questionnaire. The time spent on completing the questionnaire includes the time spent on reviewing instructions, collecting and preparing the necessary data.	Positive integer
