### 0. Information to the Respondent

FOR THE LIST OF ENVIRONMENTAL PROTECTION ACTIVITIES RELATED TO THE QUESTIONNAIRE, SEE [https://www.stat.ee/sites/default/files/2022-12/1002\\_1003\\_Keskkonnakaitse\\_valdkondade\\_loend\\_2023\\_en\\_0.pdf](https://www.stat.ee/sites/default/files/2022-12/1002_1003_Keskkonnakaitse_valdkondade_loend_2023_en_0.pdf) The submitted data are aggregated and published in the database at [HERE](#), comparative data for European Union countries is available [HERE](#)

You have received this questionnaire as Statistics Estonia has information that your enterprise offers environmental protection services as a secondary activity.	
As the enterprise operates in other activities as well, provide only investments, expenditures and revenue that are related to environmental protection and are not distinguished in the annual report.	
The most common environmental protection services are: waste management, waste collection, remediation activities; street cleaning; wastewater management;	
environmental consultations/training/monitoring/analyses; preparing environmental impact assessments; environmental management.	
If the enterprise does not perform environmental protection activities, add a comment by "Submit comment about period", which opens under "See more".	
If the enterprise did not perform environmental protection activities during the reference period but is planning to do so in the future, add a comment by "Submit comment for the period", which opens under "See more".	
In case of any questions, please call +372 6259 300 or send an email at <a href="mailto:klienditugi@stat.ee">mailto:klienditugi@stat.ee</a>	

### 0. Information about feedback questionnaire

Dear Respondent!	
Questions for feedback have been added at the end of the questionnaire.	
We look forward to your suggestions and comments to make the questionnaire more user-friendly in the future.

### 1. ENVIRONMENTAL PROTECTION INVESTMENTS, EUROS (Click on the table name to access additional information about the table.)

Investments in integrated technologies – capital expenditures on new technologies, equipment, materials, fuels, etc. designed to reduce the amount of pollutants and waste created in the production process. Investments made for purposes other than for the reduction of environmental pollution (e.g. technical, financial, etc.) are not indicated here. End-of-pipe (pollution treatment) investments – capital expenditure on equipment and technologies designed to prevent or reduce pollutants and waste created in the production process from entering the environment and to monitor the pollutants created. Columns 1, 2, 3 and 5 in Table 1 are prefilled if you received support from the Environmental Investment Centre (KIK) last year. Please add the sum of support received from KIK that you used in the reference period. If the enterprise did not make investments in the prefilled project during the reference period, delete the prefilled row and add actual investments made during the reference period.

## 2. INTERNAL CURRENT EXPENDITURES ON ENVIRONMENTAL PROTECTION AND PAYMENTS FOR ENVIRONMENTAL PROTECTION SERVICES, EUROS (Click on the table name to access additional information about the table.)

When submitting data in eSTAT, the internal current expenditures on environmental protection and payments for environmental protection services are already provided in the list. The list is based on your enterprise's previous year's list. In the description specify the environmental protection expenditure. EXPENDITURES are expenses incurred in-house (e.g. wages and salaries, equipment), PAYMENTS refer to environmental protection services purchased from other enterprises (e.g. refuse collection, wastewater management, training, analysis, etc.). It is not necessary to provide pollution and resource charges.

### 3. REVENUE FROM ENVIRONMENTAL PROTECTION ACTIVITIES AND FROM SELLING ENVIRONMENTAL BY-PRODUCTS, EUROS (Click on the table name to access additional information about the table.)

Revenues from environmental protection activities are, for example, receipts for wastewater management or waste management but also for offering environmental protection training, monitoring, analyses, etc. Revenues from selling receipts of environmental protection activities are, for example, receipts for scrap metal, wood waste, packaging waste (e.g. glass packaging), recycled production waste, etc. Report revenue from environmental services and receipts from environmental by-products on separate rows. Description and environmental activity are prefilled using reported data from last year. Please add the sum of receipts (euro) or delete prefilled row if such receipt was not received. Also add receipts from environmental activity or by-products that are not prefilled.
