Statistics Estonia guarantees the full protection of data submitted.

Questionnaire “Shipping traffic” is used for collecting data from ports by quarters, based on the needs of the consumers of the European Union (EU) and Estonia. The survey provides information about the carriage of goods and passengers through ports. The survey on carriage of goods and passengers through ports established with the legal acts of the EU is performed based on a consistent methodology and it allows to compare the changes in the carriage of goods and passengers in different countries.

Pursuant to the directive 2009/42/EC of the European Parliament and of the Council of 6 May 2009, Statistics Estonia collects data from the largest statistical ports (main ports) of Estonia. Pursuant to the directive, the survey investigates those ports which process over one million tonnes of goods and/or is visited over 200,000 passengers in a year. A statistical port consists of one or several ports which are capable of registering the movement of vessels and cargo, and which is generally controlled by one port authority.

The data will be published in the statistical database <https://andmed.stat.ee/en/stat> in section Economy / Transport / Water transport. The dates about the publication of new statistics can be found in the release calendar, which is available for the consumers on the website of Statistics Estonia.

The questionnaires together with the instructions are located on the website of Statistics Estonia at <https://www.stat.ee/en/submit-data/questionnaires>. To submit the data, we recommend using the electronic data transmission environment eSTAT <https://estat.stat.ee/>.

For additional information about the submission and filling out of the questionnaire, please call +372 625 9300 or send an email to [klienditugi@stat.ee](mailto:klienditugi@stat.ee)

Please make sure to inform Statistics Estonia about the change of general data of the company or amend the data in eSTAT in section “Work with economic unit”.

Accuracy of the data ensures truthfulness of statistical information.

Reporting port, port of loading-unloading and port of embarking/disembarking:

Port codes are available on the website of UNECE – United Nations Code for Trade and Transport Locations (UN/LOCODE) <https://unece.org/trade/cefact/unlocode-code-list-country-and-territory>. Estonian ports are listed on the website <https://www.sadamaregister.ee>

Carriage of goods are the goods transported on commercial sea journeys. Bunker fuel for ships, ship's stores of maintenance equipment, food and supplies are excluded, since these are related to the operation of vessels.

Weight of goods includes the weight of the package but not the tare weight of containers and roll-on/roll-off units.

The loading and unloading of goods is calculated together with transit goods.

Number of outward/inward passengers is number of passengers who start/finish the voyage in port and it does not include crew members.

eSTAT (<https://estat.stat.ee/>) is for data submission.

Please make sure that you enter data in the correct cell. If you enter alphabetical characters in a number field, a corresponding error message is displayed. In the case of some fields, logic (arithmetic) checks have been applied to prevent data entry mistakes. If there is a conflict in the entered data or they conflict with pre-filled data, an error message appears when the table is checked. In the case of errors, review the data carefully and make corrections.

After correcting the data, save changes and check the questionnaire again. If there are no more mistakes, confirm and submit the data by clicking “Confirm” on the last page of the questionnaire. You will be displayed a message that the data have been submitted successfully. If you have any questions, please contact Statistics Estonia's customer service either by phone at +372 625 9300 (Mon–Thu 8:30–16:30, Fri 8:30–15:30) or by e-mail at [klienditugi@stat.ee](mailto:klienditugi@stat.ee).
